## Experience & Projects

Full-Stack Developer (Project – Kishan Mitra Platform)

IIT Patna – Patna, Bihar

Apr 2025 – Jul 2025

- Developed a full-stack web platform using Next.js, Node.js, Express.js, and MySQL.
- Created dynamic frontend components with React (Next.js) and styled UI using Tailwind CSS.
- Designed database schema covering crop pricing, farmer details, and transactions.
- Integrated REST APIs to seamlessly connect frontend and backend services.
- Collaborated with a team of 4 ensuring responsive design and cross-browser compatibility.

Open Source Contributor

- Contributed to Open Source Connect India projects.

Hackathon Participation

- Participated in Hack N Tech hackathon at IIT Patna.

Additional Projects

- VigyBag: E-commerce platform for eco-friendly products. Contributed UI design, product listings, and cart functionality.
- Todo List Web Application: React-based task manager with CRUD operations and component-based design.
